A large grid of 100x100 small squares, each containing a black dot. The grid is labeled with numbers 130, 140, 150, 160, 170, and 180 at the top, and 430, 440, and 450 on the left side.

[illegible]

The figure shows a 2D spatial domain defined by x-coordinates 310 to 360 and y-coordinates 430 to 450. The domain is discretized into a fine grid. Black squares represent one state, while white squares represent another. The majority of the domain is filled with black squares, indicating a high concentration of that state. There are distinct regions of white squares, particularly a cluster of larger white areas between x=330 and x=335 and y=430 and y=435, and smaller, more isolated white patches elsewhere.
